Financial Policy

Dear Patient,

Here at Waukee Wellness & Chiropractic we provide our services directly to you, not your insurance company. You are ultimately responsible for your bill. If you are submitting your own claims we will provide you with an itemized bill. However, as a courtesy to you, we will bill your insurance company for services rendered, provided that your deductible, co-insurance, and/or copay for said services have been paid. In the event that we are billing your insurance and a check is mailed to you, you MUST bring the payment to the office within 7 days so that we may properly credit your account. If your insurance carrier has not paid a claim within 90 days of submission, you accept responsibility for payment in full of the outstanding balance. You are required to inform us of any and all insurance changes within 30 days. You will be responsible for any outstanding charges accumulated during your insurance lapse. If your balance reaches \$100 and there is no payment plan scheduled, we hold the right to not provide service to you until payment is made or a payment plan is in place. If you discontinue care for any reason, all balances become immediately due and payable in full by you, regardless of any claim(s) submitted. If your account enters into a default status and is considered past due, you assume and agree to pay any administrative fees that may be associated with the collections process. (A default account is deemed when your patient balance is \$100 or more or any amount 90 days past due.)

Informed Consent for Chiropractic Care

As a patient coming to Waukee Wellness & Chiropractic you give the doctor permission and authority to care for the patient in accordance with the chiropractic tests, diagnosis, and analysis. The chiropractic adjustments or other clinical procedures are regularly beneficial and seldom cause any problems. In rare cases, underlying physical defects, deformities, or pathologies may render the patient susceptible to injury. The doctor, of course, will not give any treatment or healthcare if he is aware that such care may be contra-indicated. It is the responsibility of the patient to make it known, or to learn through healthcare procedures whatever he/she is suffering from: latent pathological defects, illnesses or deformities which would otherwise not come to the attention of the Chiropractic Physician. The Chiropractic Physician provides a specialized, non-duplicated healthcare service. Your Doctor of Chiropractic is licensed in a special practice and is available to work with other types of providers in your healthcare regime. I understand that if I am accepted as a patient by Waukee Wellness & Chiropractic, I am authorizing them to proceed with any treatment that may be necessary. Furthermore, any risk involved regarding Chiropractic treatment, will be explained to me upon my request.

If you would like to have a more detailed account of our policies and procedures concerning the privacy of your PHI we encourage you to ask and we will provide you with that information.

1. The patient understands and agrees to allow Waukee Wellness & Chiropractic to use their PHI for the purpose of treatment, payment, healthcare operations, and coordination of care. As an example, the patient agrees to allow this chiropractic office to submit requested PHI to the Health Insurance Company (or companies) provided to us by the patient for the purpose of payment. The patient may request to know what disclosures have been made and submit in writing any further restrictions on the use of their PHI. Our office is not obligated to agree to those restrictions.
3. A patient's written consent needs only to be obtained one time for all subsequent care given the patient in this office.
4. The patient may provide a written request to revoke consent at any time during care. This would not affect the use of those records for the care given prior to the written request to revoke consent but would apply to any care given after the request has been presented.
5. For the patient's security and right to privacy, all staff members have been trained in the area of patient record privacy and a privacy official has been designated to enforce those procedures in our office. We have taken all precautions that are known by this office to assure that your records are not readily available to those who do not need them.
6. Patients have the right to file a formal complaint with our privacy official about any possible violations of these policies and procedures.
7. If the patient refuses to sign this consent for the purpose of treatment, payment, and health care operations, the chiropractic physician has the right to refuse to give care.
